BROWN'S HOTEL,

MACON GA

THIS long and well known Hotel, with its unequalled system, still presents itself to the traveling public.

The House was opened on the 1st of January, 1866, and took at once a prominent position among the "first class" Hotels of the country. It has never been closed since, but it has been steadily increasing in prosperity, till it acknowledges no successful rival in the business in the State.

Recent improvements and refurnishing of the House, which is still in the hands of the Proprietors, have left nothing to be desired by those who love their ease and enjoy the comforts and luxuries of life. The Hotel is admirably situated for the convenience of the traveling public, being situated opposite the Passenger Depot, and but a few steps from the same. It has a retinue of well trained servants in every department, and the Proprietors will spare no pains or expense to sustain the established reputation of the Hotel. Special attention paid to the wants of lady guests, who may sojourn at the House, and none shall go away dissatisfied, if an earnest endeavor to please will secure a liberal share of the public patronage.

SPECIAL ATTENTION GIVEN TO COTTON.

Liberal advances made on Consignments to us for sale, or Shipment to our friends in Baltimore, Philadelphia, New York or Liverpool.

Wishing to aid our Planter friends in their efforts to secure for themselves the full benefit of their Cotton Crops, we have determined to make advances on Cotton consigned to us on the following easy terms:

On Cotton, for sale at discretion, advance seventy-five (75) per cent. of its marked value, charging interest on the advances until the Cotton is sold at the rate of seven (7) per cent. per annum.

On Cotton, to be held Thirty Days, advancing fifty (50) per cent of market value, charging the regular commission for advancing, ½ per cent., and interest on the advance at the rate of seven (7) per cent. per annum.

On Cotton, to be held Sixty Days, fifty (50) per cent. of its market value, charging commission for advancing, ½ per cent., and interest on the advance at the rate of seven (7) per cent. per month.

In all cases the advance will be based upon the market value of the Cotton on the day it reaches us.

ATLANTA, GEORGIA.

WITH the advent of another Cotton Season, we renew to our friends and patrons the offer of our service in the storage and sale of their cotton. We have demonstrated the fact by the experience of past seasons, and particularly of the last, that Atlanta is one of the best interior cotton markets of the South. This is due chiefly to her situation; being on the most direct route from the producing districts to the large seaport marts, and having the choice of three routes to New York, via Savannah, Charleston and Norfolk, all of which are freely and satisfactorily used. The importance of Atlanta as a cotton market was, during the last season, acknowledged by the New York buyers, many of whom made extensive purchases, which with the local competition enabled us to realize the most satisfactory prices; relatively higher in most instances than could have been obtained by our consignors, by shipments to more distant points.

The members of our firm are all men of large experience in cotton, and well known in the community. Our Warehouse cannot be surpassed, being of large dimensions, completely sheltered, and fire-proof. Every money facility usual in such houses we are prepared to furnish.

THE CONSTITUTION.

VOLUME I. ATLANTA, GEORGIA, THURSDAY, NOVEMBER 26, 1868. NUMBER 140

EVENING EDITION.

ATLANTA, GEORGIA, NOVEMBER 26.

THANKSGIVING.—To-morrow being set apart for prayer and thanksgiving by the President, our employees will claim the privilege, and no paper will appear in the afternoon or Friday morning.

Advertisers are notified that they must come in to-night, or wait for Saturday morning's edition.

COL. GLENN DECLINES.—It will be seen by his card, which we print this evening, that Col. Glenn declines the nomination for Mayor. This is no more than we expected. Col. Glenn is too good and true a Democrat to permit the use of his name to the detriment of his party.

Our ticket is now without other than nominal opposition. With its head gone, we shall expect the tail of the "citizens' ticket" to drop off soon. But, instead of relying upon perfect security, we should stir ourselves with renewed vigor, that the success of our candidates may be placed beyond the remotest doubt. The Democrats of this city are too shrewd to be inveigled into a Radical trick to defeat their own candidates.

Now, that even the show of opposition has wilted away, let us roll up such a majority for our ticket as will forever place Atlanta beyond the hope of Radicalism.

ANOTHER SUGGESTION.—*Registration in Augusta.*—Up to yesterday the number registered in Augusta was 3,108; whites 1,462, colored 1,546. With no greater margin than this against them, if the Democrats don't win it is their own fault. We suggest to our friends there, to invite a committee of managers from Albany, or some other city of Southwest Georgia.—*Atlanta Constitution.*

We are certainly much obliged to our cotemporary of THE CONSTITUTION for his kind advice to our people. We believe that we can safely assure him that there is really not much reason for his extreme solicitude for our condition. We expect to elect our ticket and think we can do so without troubling our Albany friends for "a committee of managers." At all events we are willing to risk the race without assistance from abroad.

By the by, would it not be well for our Atlanta friends to secure the services of "a committee from Albany or some other city of Southwest Georgia" to secure harmony in the Democratic party in Atlanta, and prevent the running of *two Democrats* for Mayor. What does our friend of THE CONSTITUTION think of our *suggestion?—Chronicle and Sentinel.*

We are glad, General, that you have so much confidence, and we are satisfied that your confidence is well founded. During a day's sojourn in your city this week, we mingled with the boys and found them fully alive to the occasion and equal to the emergency.

We are not going to run "two Democrats" in Atlanta. A few gentlemen tried it on, but it wouldn't fit, and they have, we believe, all come in out of the weather.

## Air-Line to the South—Struggle of Cities.

We have recently published, says the Richmond Dispatch, very gratifying facts concerning the movements in behalf of the construction of the Air-Line from this city to Atlanta, Ga.—a line which will be the shortest by at least one hundred miles between the Gulf cities and New York. The importance of this new route, connecting Richmond with the far South, cannot be over-estimated. It is indispensable for her protection in the struggle for the Southwestern trade.

With this connection, and an unbroken guage to Atlanta, Richmond will have such advantage of distance that she need fear no competition. As a through route for travel, with the York rail and water line and the Fredericksburg rail, it will maintain itself triumphantly.

With such a line, giving our citizens direct and rapid communication with the teeming South, they can make trade and business for themselves to an unlimited extent. They have but to put forth their hands and pluck the rich fruit that will be placed within their reach. That, too, will be done in a short time, as the facts recently published clearly show. It is not too soon now to begin the work of cultivating relations with the people along this great line, traversed by roads owned in part by our own citizens, and which will be worked as decidedly in the interests of our city as a just and fair administration of railroad management will permit.

The course of railroad enterprises and of trade within twenty years past, and at the present time, is highly interesting and instructive. One after another of the great Atlantic cities have considered themselves in critical conditions from the centralizing influences of railroads, and each in turn has found a remedy from the very engine from which it apprehended destruction. It gave Philadelphia access to mineral treasures, stimulated her manufacturing industry, and drove her ahead in population and wealth to a degree that, while it did not make her as great as New York, placed her but a little way behind that great metropolis of this continent. Next, Baltimore, by the help of the same powerful agent, is snatched from the fate of a victim and placed upon a foundation altogether impregnable, there to grow and triumph in a manner that excites the admiration of the nation.

GONE UP.—On March 4th next terms of the following United States Senators expire: John Conness, Lot M. Morrill, Charles Sumner, Zacariah Chandler, Alexander Ramsey, John B. Henderson, Thos. W. Tipton, Wm. M. Stewart, F. I. Frelinghuysen, Edwin D. Morgan, Benj. F. Wade, William Sprague, George F. Edmunds, and Garvin Wilkie, Republicans; and James Dixon, James A. Bayard, Thomas A. Hendricks, Wm. Pinckney Whyte, Charles R. Buckalew, Daniel I. Patterson, and James R. Doolittle, Democrats. William Sprague and George F. Edmunds have already been re-elected, while Messrs. Morrill, Sumner, and Chandler, it is said, will be re-elected. Eugene Casserly, D., succeeds Conness, R., and Allen G. Thurman, D., succeeds Wade, R.; William G. Buckingham, R., succeeds Dixon, R., and William G. Brownlow, R., succeeds Patterson, D.; Wm. T. Hamilton, D., succeeds Whyte, D., from Maryland.—John P. Stockton, D., it is announced, will succeed Frelinghuysen, R., from New Jersey. Fourteen States, including New York, New Jersey, and Pennsylvania, are yet to elect Senators.

## Col. Glenn Declines.

ATLANTA, NOV. 25, 1868.

*Gen. Alfred Austell:* Dear Sir—At a citizens' meeting, over which you presided, held on the 18th inst., I was nominated as a candidate for Mayor. Appreciating this expression of confidence emanating from a meeting of the citizens of Atlanta held without reference to party, I must, nevertheless, respectfully decline the nomination. Absence from home has prevented an earlier notice of the action of the meeting.

Yours very respectfully,

LUTHER J. GLENN.

CO-OPERATIVE SOCIETIES IN ENGLAND.—The co-operative system, which has been very generally adopted in the manufacturing towns of England, has met with more success in some sections than in others. In Halifax, a manufacturing town of Yorkshire, the co-operative production, as well as distribution, is practiced, although the former does not appear to have proved profitable in other parts of England. The workingmen's co-operative society of that place has a store which cost $100,000. The basement contains seven shops belonging to the society—a butcher's, provision, boot and shoe, linen draper's, a grocer's, a woolen draper's and a tailor's. There are coffee rooms on the second floor for the male and female members of the society, besides a dining-room, reading-rooms, and a smoking-room.

The society has also, a mile from the town, a farm of sixty acres, where they cultivate cereals and raise sheep. The association went into operation in 1849. It numbers now five thousand members, and its yearly profits amount to $80,000, which does not include the sum appropriated for the purchase of books, lectures and newspapers.—*New York News.*

WHAT A BIG RAILROAD EARNS.—In October, 1866, the Louisville and Nashville Railroad and its branches earned $209,793,-79; in October, 1866, $241,715 16; in October, 1868, $207,373 55. In October, 1867, it earned $31,921 37 more than in October, 1866, and $34,341 61 more than in October, 1868.—*Courier-Journal.*

### Senators Hill and Miller.

From the Atlanta New Era.]

MADISON, NOV. 17, 1868.

*Dr. H. V. M. Miller, Atlanta, Ga.: Dear Doctor*—I heard after we parted at Washington that some newspaper correspondent had written that I represented you as a friend of Gen. Grant. I never saw anything of the article, nor gave it any consideration. I knew that you would not believe the report.

The statement might have had this foundation: When asked what was your true position, I answered that you were an old Whig, but had not been acting with the Democratic party. That you were independent in your course; recounting what you had done for the Convention, in the Convention, and in defence of the Constitution prepared by the Convention. And I venture to say of you, that from my knowledge of you, you would support any measure of the new administration that met your approval; that you would not consider yourself bound to follow the lead of any set of politicians. In this I thought I did you no injustice. Such was and is my confidence in the good and patriotic purposes of General Grant, and such my reliance upon your manly determination to do whatever you think right, that I venture to hope that you will give a generous support to many of the leading measures of the incoming administration.

The nation and the civilized governments of the world are not prepared to find in Gen. Grant a relentless partizan. They expect something elevated and grandly patriotic of him; something above a party schemer. I feel a conviction that he will not fall far short of the general expectation. Should I be right in my conjectures, I know we shall not be widely separated.

Drop me a line in reply, and tell me what you think of my speculations in regard to Gen. Grant, and likewise as respects yourself.

With highest regard, yours, most truly.

JOSHUA HILL.

ATLANTA, GA., NOV. 18, 1868.

Dear Sir—In your note of the 17th inst. (just received) you very correctly state my position in relation to the incoming administration.

As a citizen or as a Senator, I will offer to it no factious opposition. On the contrary, so far as may be consistent with my duty to the country and my obligations to the Constitution, I expect to support it.—Of Gen. Grant personally, I know nothing; but in common with the whole country, I indulge the hope that availing himself of his independent position, guided by his own magnanimity and sound judgment, he will rise above mere party interests, and make his administration so "grandly patriotic" as to command the admiration of all men. Should I find exhibited by him the desire to restore to the whole country the tranquility which results from the observance of the Constitution and obedience to the laws, and the liberty secured by both, he will have no more earnest supporter than myself.

From my knowledge of your public and private character, I have no doubt that you recognize other and higher duties for an American Senator than the maintenance of a party and the distribution of the emoluments of office, and I share with you the expectation that, upon questions which may arise in the future, we shall not be widely separated.

Very respectfully,
your obedient servant,
H. V. M. MILLER.

Hon. Joshua Hill.

WASHINGTON, NOV. 20.—Orders have been issued from the Navy Department, under orders of the President, to send a strong reinforcement to the Brazil squadron.—General McMahon, the new Minister to Paraguay, who is now at Rio Janeiro, is to proceed forthwith to the headquarters of the Dictator Lopez, and not only demand but enforce the release of all American citizens held as prisoners by him. There is a great deal of feeling about the matter, and universal condemnation by all people in the behavior of the recreant Washburne.—This great family—that under the lead of Elihu, who aspires to be the American Warwick—is deeply humiliated by the conduct of their disgraced member. At latest advices ex-Minister Washburne was still at Buenos Ayres.

"LET US HAVE PEACE."—The chivalry of the South, who are enjoying themselves in killing negroes and driving white Union men out of business, and who are also very sure General Grant intends to become a second Andrew Johnson, will wake up pretty soon to a sad realization of the difference between a real and accidental President.—*Forney.*

### The Georgia Agricultural an Mechanical Association.

To give time for a full and perfect organization and to secure a combination of all the leading interests of the State, the undersigned Committee, appointed for the purpose, call a meeting to be held in Macon, on the 10th of December, proximo, at which time a Constitution and Charter for "The Georgia Agricultural and Mechanical Association" will be submitted for adoption.

### Farmers' State Convention.

The Putnam County Agricultural Society have called a Convention of the Farmers of Georgia, to be held in Macon the second Wednesday in December next, for the purpose of organizing a State Immigration Society.

### Convention—To Planters, Manufacturers and Mechanics,

The old Cotton Planters' Convention convened, after the war, in Macon on the 6th of September, 1866, met again, in Milledgeville, in November, 1866, and changed its name to "Agricultural and Manufacturing Association of the State of Georgia," with a view of enlarging its operations, and inviting the co-operation of every industrial interest of the State.

By resolution, this new Association was to have met at Milledgeville, simultaneously with the Legislature, in November, 1867. Owing to the political changes in the State, and excitement of the public mind, it was deemed advisable to postpone said contemplated Convention till a time more opportune for useful deliberation.

Deeming that period to have arrived, I hereby call a Convention of that Association to meet in the city of Macon, at 10 o'clock A. M., on the 10th day of December, proximo.

Planters, farmers, manufacturers in cotton, wool, iron, wood, and mechanics, and every industrial interest of the State, are earnestly invited to send to that Convention intelligent Representatives to deliberate for the advancement and development of the industrial interests of the State.

The Committee recently appointed in the city of Macon, to make provision for holding an Agricultural and Industrial Fair in that city at a future day, are respectfully requested to provide a hall for the convention.

The newspaper Press of the State, I feel assured, will manifest its characteristic liberality, in behalf of the material interests of the State, by publishing this call, and keeping it before the people till day of meeting.

BEN. C. YANCEY,
President Agricultural and Manufacturing Association of the State of Georgia.

ATHENS, GA., Nov. 12, 1868.

STATE AGRICULTURAL AND IMMIGRATION CONVENTION.—It is very important to the future of Georgia that she be largely represented in the Agricultural and Immigration Convention which meets in Macon, Wednesday, the 9th of December. Every county in the State should be represented. The Convention will, we believe, do much towards inaugurating a new agricultural era in this State. It will bring our people together upon a platform on which they can all agree—the material interests of the Empire State. We are pleased to note, since the election, the zeal of our people in the questions which will occupy the Convention.

We trust Fulton county will be fully represented. Her citizens should hold a county meeting at as early a day as practicable and appoint delegates. For this purpose, we would suggest a meeting at the City Hall in this city on the first Tuesday in December.

NO PAPER UNTIL TO-MORROW EVENING. In respect to the Proclamation of the President, setting this day apart as one of Thanksgiving, we will issue no paper this evening and to-morrow morning.

THE CITY ELECTION.—It is a fixed fact that our ticket will be elected on Wednesday next. The opposition could not place one in the field that could defeat it. Its success is already assured. What then should be the course of every good citizen? Is it not to nerve and strengthen it for the duties it will have to discharge? This may best be done by giving it a moral as well as a political support. The ticket is in every respect worthy of our confidence. It would be difficult to select one in which center more of the requisite qualifications. The plea of youth and inexperience when applied to it is without fact or force. While some of the gentlemen are comparatively young, in a practical and business sense, they are self-made men, having that character of education, which even at thirty, makes one older in experience than others at fifty. They are all within the active, energetic era of life. Neither too young nor too old, they will bring to the support of the city the vigor of manhood and the wisdom of maturer years. Let us all now go to work regardless of personal preference, and give the ticket our hearty and united support. The moral effect will act as a powerful incentive in their administration of our affairs. It would cheer them in the discharge of difficult labors and buoy them up under the most onerous task.

The child is christened, and let us all join in bidding it a bright and prosperous career.

### Thanksgiving Day.

Mindful of the many Providential blessings showered upon us during the year now drawing to a close, the chief magistrate of the nation has appointed this a day of Thanksgiving. The good people throughout the country, in acknowledgment of their obligations to the Lord of earth and Heaven, will appropriately observe the day. Though sorrows afflict us, and misfortunes beset our pathway, we have abundant cause of gratitude to the Giver of all good. We have been spared our lives, blessed with health, prospered in pursuit, and supplied beyond our deserts in our temporal wants. And though our desires may not have all been gratified, we have been supplied with the necessaries of life. Harvests of plenty have been gathered into our granaries; our war-stricken land has been made to revive under the stroke of industry, and on each hand we mark the rich fruition of our toil. Though the Southern people have been persecuted without cause, and misrepresented for political effect, that God, whose government is over all, has visited them daily with His sunshine, in due season with rain, causing the earth to blossom and mature with fruit for their good. Though reviled of men, by Him they have not been forgotten. Imploring His aid in need, His blessings have not been withheld. His ears were ever open to their prayers, and in His munificence they have been graciously remembered. And while our obligations are more to God, in the absence of that forgiveness and toleration which should have controlled our temporal rulers, yet we should cultivate a spirit of forbearance, and forgive our enemies, for they "know not what they do."

To-day, while returning thanks for the manifold gifts of a beneficent Giver, our love and sympathy for our fellow-creatures should be rekindled at the sacred shrine. We cannot love God and hate man. The spirit of brotherhood, like a sunbeam from the sky, should give light, and life and gladness, to the drooping heart. Our smiles soulful with tenderness, like the sunshine of heaven to the waste places of earth, should go forth to lighten the sorrows of our hapless race. We should scatter the sunbeams of gladness in our paths, and shower cheerful words upon cheerless ears as dew-drops upon the summer flowers. We should plant flowers of happiness in the deserts of misery, that their perfume may solace lives less favored than our own. The sunshine was not given our souls to be obscured by the narrow bounds of selfishness. They should expand with sympathy for the sinking spirit and the drooping heart. The harshest voice may soften to a tone of sweetness that will bind as with a spell the ear of the world, Then indeed, will all our days instead of one, be of Thanksgiving and Prayer.

### Killing of H. Rives Pollard, Editor Southern Opinion.

In our paper yesterday morning, a Richmond telegram stated that H. Rives Pollard, editor of the Southern Opinion, had been killed in the streets of that city, by James Grant. It appears that while Mr. Pollard was near his office door, Grant, from the window of the building opposite, fired the contents of a double barreled gun at him, emptying eleven buck-shot into his body, one of which, passing through his heart, caused his instant death. Had the act been justifiable—the cause one of the most aggravated character, the manner in which it was committed, brands its author as a coward. Its atrocity, in view of the facts, is without a parallel. That our readers may judge for themselves, we subjoin the article, from the Southern Opinion, which gave rise to the difficulty:

AN ELOPEMENT, SO-CALLED, ON CLAY STREET —AN UPPER-TEN FAMILY CONCERNED — DREADFUL DENOUEMENT.

"Oh, no, we never mention 'em—*Oid air.*

The Indian Summer has passed away, and with it has passed a fair and radiant daughter of one of our first citizens—a nabob of Clay street—a gentleman who, suffice it to say, holds the first position in the wealthy and fashionable circles of the city. The daughter, the rebellant *Helene* of the family, is beautiful beyond description, but her beauty did not prevent her from falling desperately and irretrievably in love with a young gentleman of semi-*militaire* connections, who, it appears, some months ago, plighted his troth and accepted the tiny hand, grasping it within his own—

"Never to be parted; never for aye."

Nobody suspected a *messelliance*, much less the father, until last Saturday night, when the daughter who was the light of his household, fled to parts unknown, or at least only guessed, in company with one (a masculine) who should ere then have been proclaimed his son-in-law.

The runaway parties have been heard from, and it is now said the lady proclaims herself a wife of some six months, and that her affianced is the choice of her after life.

"What God hath joined together let no man put asunder."

The gay young man, who has wisked away the angel, is a Lothario named Horace Ford, of Goochland county, which county should be proud of him, as it doubtless is. Horace is an orphan, just plunging into his teens, and lost both of his parents by death. Much property accrued to Horace in the shape of money, chattels, goods, &c., and having converted the whole into "ready rhino," Horace ventured for a swim in the sea of gay life and love. He met Miss Mary Grant—a beauty—

"Met perchance the usual way."

Talked delicious nonsence, won her heart, then half inclined to earnestness, threw it away. Ah! me!

Then he sailed—

"Oh, he sailed, oh! he sailed,"

The same as Captain Kyd did.

Horace went to New Orleans, and not having been shipwrecked by the way, telegraphed or wrote his beloved. Thus it went on through the sultry month of August, the crimson period of October, when the forests changed their garments, down to dull, chill November.

Alas, that love should never run smooth, but love never did and never will; so they say. She responded, all unknown to the healthy dad, and he replied. Thus affairs progressed until Horace announced last week, that he was off for Texas right away and couldn't stop for trifles like an affianced.

Then it was that the girl of the period made up her mind and bundle. She would follow him—yes, she would follow him to the uttermost parts of the earth. Being of age, and no longer the slave of parental control, Miss Mary, on Saturday night last, having habilimented herself becomingly, deserted the palatial mansion on Clay street, and casting behind her wealth, society and friends, sought the office of a gentleman on Broad street, whom she importuned to buy her a ticket to New York. This gentleman, who is the pink of propriety, refused, and Miss Mary sought elsewhere and found the ready means.

At all events she procured passage on the cars and embarked on the 3½ o'clock train, which carried her northward at the rate of twenty or thirty miles an hour, if not as speedily as her heart desired. On the train between Richmond and Acquia Creek, she was observed to weep bitterly by the conductor, to whom she related her tale of woe and distress.

Her departure created of course, a hubbub in the mansion on Clay street, and amid the wringing of hands and loud exclamations of distress, the telegraph was invoked and parties sent in hot pursuit. It was surmised that young Ford, instead of going off to Texas "right away," as he announced, had put for New York, there to meet his Mary, and thither the detectives directed their steps.

The upshot of the matter is, to make a long story short, that Miss Mary has been heard from; that she is now in Philadelphia, and that upon the whole, there is a very sorry family history connected with the case, which it is not within our province to reveal.

### The Suspension of the Charleston Mercury.

Our readers are advised of the suspension of this able defender of the right. We had not thought that even the New York Tribune would rejoice at this event. We were mistaken. It is the representative of a class who openly gloat over the misfortunes of millions of their countrymen. Their hatred is not confined to special instances like this—it is general. The Tribune would reduce all to the level its doctrines have forced upon the Mercury, else there is no peace to those who oppose its sway. The Tribune is one of the main sources whence the evils with which the country is afflicted, sprung. Not satisfied with the success of the war, which, for years and years it cruelly waged against the rights of whole communities, it maliciously glories in the ruin it has wrought.

*Suspended.*—We see it announced that the Charleston Mercury has suspended publication. There could scarcely be a more suggestive fact. The Mercury has always been the organ of the Aristocracy of the South, and has always represented the extreme sentiment of Southern slave-driving aggrandisement. Before the war, it was the earnest enemy of the Union. During the war, it championed the harshest measures; and since peace, it has been the implacable foe of every honest attempt at reconstruction. Edited by a member of the noted family of Rhetts, it has fully represented every principle of which the Rhetts have so long been intrepid and consistent advocates. Its suspension, therefore, indicates that the "Aristocracy" is dead; that the "First Families" of the South can no longer support an organ; and that as a political fact their empire is past. We are sorry for Mr. Rhett, and for the suspension of his enterprise; but the death of the Mercury is a sure sign of the dissolution of all that remains of the proud and exclusive class that dwelt for so many years in South Carolina, and reigned over the whole Republic.—*N. Y. Tribune.*

If the Southern Aristocracy are no longer able to support organs, as alleged, it is because they have been robbed of the means by teachings and practices of which Mr. Greeley is the arch-author.

But the old sinner is a little too fast. How he will grit his teeth when he learns from the following card that the Mercury is to be revived on a "substantial basis:"

A CARD.—Circumstances beyond my control have caused the suspension of the Charleston Mercury. But the public should not be led to the conclusion that the paper is extinct. Measures are afoot for issuing it again on a substantial basis. And it is expected to put it forth in a style that will satisfy every requirement of a first class Southern newspaper.

R. B. RHETT, Jr.,
Proprietor of the Mercury.

☞ The Baltimore Sun thinks the South should be hopeful, because when William of the doubtful pedigree "went for" the Saxons of England, they thought all was lost, and yet Anglo-Saxonism lives to claim the championship and the belt of the 19th century; and because when "Old Noll" was about, the cavaliers imagined there never was to be any chance again for anything except the long psalms, longer sermons and longest faces of the Puritans; and yet, lived to be agreeably disappointed. However that may be, we think there is wisdom in the Sun's remark that the South, instead of thinking that because the old times are gone everything is lost, should believe that new times are beginning, in which there is much to be gained. That, at least, is our candid opinion. History, indeed, may teach that a situation like ours must continue to get worse; but, then, history knew nothing about portable railways, beef packeries, car refrigerators, carbolic acid and the telegraph. Having all these advantages, with the steam plow and other blessings just about to burst the shell, we can be moderately comfortable and prosperous in spite of politics, which, by the way, are constantly becoming more and more unfashionable, and may soon go altogether out of date, giving place to something that will be less troublesome and much more remunerative.

GONE OVER.—The "Democratic" papers in the District, says the Washington correspondence of the Baltimor Gazette, seem to vie with each other in laudations to the "coming man." There is evidently a hiss of the "green-eyed monster" in the following paragraph in the Express of Saturday:

"*Gone Over.*—Our neighbors of the Intelligencer some time since charged the Express of having "gone over" to the Grant side. We have now to announce that the shrewd managers of this old journal have thought it wise to follow our (supposed) example, and have completely flopped over. *Vide* its leader of this morning: 'We do not propose endless strife and agitation;' 'This is the very melancholy of madness;' 'We choose to welcome General Grant as a pacificator,' &c., &c., &c. Let us have peace!"

BURKE'S WEEKLY.—Burke's Weekly, the November numbers in one, lies on our table. It is the best publication we know of for boys and girls. A whole year's subscription is only $2—a sum less than thousands of boys and girls spend foolishly for some worthless toy. How much better to give their money for something which will be of lasting benefit to them!

HOW THEY BUILD THE UNION PACIFIC RAILROAD.—Wm. B. Ogden, who has been inspecting the Union Pacific Railroad, gave the following description of the process of laying the track, in a recent lecture to the students of the Chicago University:

A side track or "turn out," one mile in length, is put down at every ten miles in addition, and a telegraph tent pitched, while seeing the world into comfort ned, bringing that section. The construction train has for 500 men, and tents for the same number the car. The washing far eclipsing any of our city laundries, was in full operation and the culinary department turning out bread at the rate of six barrels per day. The necessity of firearms was not ignored, the men being trained to the use of guns as well as picks. The water train, contained 50 tanks, stood upon a side track, and was connected by a hose to the steam pump at the rear of the train. A long train, loaded with ties, was unloaded in five minutes by a gang of fifty workmen, mule teams taking them briskly to the place where they were being laid. After the ties are laid, a car loaded with iron rails is pushed to the end of the track—two rails gauged and spiked; the car pushed a length further, and two more rails laid, the car tipped over on its side, off the track, when another takes its place, and so on *ad infinitum*.

☞ Thurlow Weed will spend the coming winter at the South.

☞ The following pretty little waif is from the pen of an English lady, whose muse has enriched the literature of her native land. We were surprised to see that the Macon Journal and Messenger, from which we clip, should have credited it to the Chronicle and Sentinel. The gifted author has never contributed anything directly to the press of this country, although many of her poems have been extensively copied by our papers and periodicals.

### When the Sea Gives Up Her Dead.

BY JEAN INGELOW.

When the sparrows build, and the leaves break forth,
My old sorrow wakes and cries,
For I know there is dawn in the far, far north,
And a scarlet sun doth rise;
Like a scarlet fleece the snow-field spreads,
And the icy founts run free,
And the bergs begin to bow their heads,
And plunge and sail in the sea.

Oh! my lost love, and my own, own love,
And my love that loved me so!
Is there never a chink in the world above
Where they listen for words from below?
Nay, I spoke once, and I grieved thee sore—
I remember all that I said;
And now thou will hear me no more—no more
Till the sea gives up her dead.

Thou didst set thy foot on the ship and sail
To the ice-fields and the snow;
Thou wore sad, for thy love did naught avail,
And the end I could not know.
How could I tell I should love thee away,
When I did not love thee anear?

We shall walk no more through the sodden plain,
With the faded hents o'erhead;
We shall stand no more by the seething main,
While the dark wreck drives o'erhead;
We shall part no more in the wind and the rain,
Where thy farewell was said;
But perhaps I shall meet thee and know thee again
When the sea gives up her dead.

### The Paschall House Muddle.

#### Suit by a Member of the Association —Curious Developments.

The St. Louis Democrat of Friday, contains the following, reference to which was made in our telegraphic dispatches of yesterday morning:

Mr. John King, well and favorably known to all lovers of mint juleps, brandy smashes and other American drinks, as the proprietor of King's saloon, under the Planters' House, has filed a petition in the Circuit Court, setting forth some rather curious facts connected with the great "Paschall House Drawing." The petition is quite lengthy, and having been filed at a late hour yesterday afternoon, we are not able at present to give more than a brief synopisis of its contents.

It is stated that Alex. Kelsey, Dan. Able and others, composed the "Paschall House Association;" that Phillip S. Lanham was selected as the agent to dispose of the tickets and attend to the other part of the business, for which he was to receive a certain commission, and was guaranteed against all losses that might be met. It was agreed that all the tickets remaining unsold at the time of the drawing were to belong to the persons who had put in the property constituting the principal prizes, and the stockholder who withdrew his property before the drawing was to forfeit 25 per cent. of its value.

With this understanding Mr. King put in his house, worth $15,000. He states that the Paschall House was really worth only $100,000, and was put into the lottery as the first prize at $230,000; that the house of Dan Able at Memphis was worth $25,000, and was taken at $60,000; the house on eighth street worth $5,000, at $15,000, the house on Chouteau avenue, worth $4,000, at $10,000; the house No. 716 Chestnut street, worth $3,000, at $9,000; the house No. 412 Morgan street, worth $5 000, at $15,000; the Jefferson City house, $6,000, at $18,00; the house No. 1545 Chestnut street, worth 15,000, at $18,000.

He further states that 70,000 tickets were sold, at $350,000, and demands a statement from the agents and the committee of the association, composed of Kelsey and the Ables. He estimates the outlay for advertising, etc., at $60,000, and asks for a statement of costs and expenses. He alleges that Kelsey & Co. received over $200,000, and demands that they be required to exhibit their accounts. He has received for his share $4,180—$2,600 in money and the balance in tickets, and as his house was drawn by the association, and he did not get as big a share as he thinks he was entitled to, he now objects to making a deed for the property, and repudiates the whole business as an illegal transaction.

THE FRUITS OF CIVIL WAR.—The increase of licentiousness in this country is pronounced before the Scientific Congress to be very great, and the late civil war pronounced to be the most prolific cause of this. The clergy and boasted philantropists who believe in war and who are ready to get up another, if need be, in vindication of their extreme opintons, will please take notice. Preaching politics in the pulpit also has driven the people beyond the good influences of religion, and in turn into the vortex of the world. The most popular social education for some years, both from the pulpit and forum, has been the law of personal, social, and sectional hate, and the wonder is, with so many Radical preachers and teachers, immorality is not even greater than we see it.

But there are greater evils from war than pesonal licentiousness and political demoralization. Our recent civil war has changed our Federal Constitution, and if not in letter, what is a great deal worse, in its spirit. Part of this, perhaps, grew out of the necessities of the hour, but more from the innovations upon constitutional liberty, which are the natural products of war. Thus we saw the Supreme Court recognize the South as a belligerent power, and then we were quite ready to quarrel with England for following our example. We also hasten to recognize a revolution in Spain, when we were so fierce to frown upon all powers which dared to recognize a revolution at home. The Czar of all the Russias becomes the source of our profoundest admiration, though this same Czar is the head and front of the worst despotism in the old world. War not only blinds men to all consistency and all decency, but seems to root out all that is moral in principle and conservative in character. The exceptions only prove the rule.—*New York Express.*

THE ORIGIN OF WOMAN.—Ladies will doubtless be interested in the following account of their origin, which Once a Week has taken from a Madagascar myth:

The inhabitants of Madagascar have a strange myth touching the origin of woman. They say that the first man was created of the dust of the earth, and placed in a garden where he was subject to none of the ills which now afflict mortality; he was also free from all bodily appetites, and though surrounded by delicious fruit and limpid streams, yet felt no desire to taste of the fruit or quaff the water. The Creator had, moreover, strictly forbidden either to eat or drink. The great aim however, came to him, [illegible] enemy, to him in glowing [illegible] and painted ness of the apple, colors the sweetness of the date, [illegible] the lusciousness orange. [illegible] and the succulence of the bered [illegible] vain; the first man remembered command laid upon him by his Maker. Then the fiend assumed the appearance of an effulgent spirit, and pretended to be a messenger from Heaven commanding him to eat and drink. The man at once obeyed. Shortly after a pimple appeared on his leg; the spot enlarged into a tumor, which increased in size and caused him considerable annoyance. At the end of six months it burst, and there emerged from the limb a beautiful girl. The father of all living turned her this way and that way, sorely perplexed, and uncertain whether to pitch her into the water or give her to the pigs, when a messenger from Heaven appeared, and told him to let her run about the garden till she was of a marriageble age, and then to take her to himself as a wife. He obeyed. He called her Banouna, and she became the mother of all races of men.

ASSOCIATED PRESS DISPATCHES

### FROM WASHINGTON.

**$25,000 in Gold to be Sold Weekly.**

**Mississippi Republican Convention.**

**A Lady Robbed of Nine Thousand Dollars.**

**Governor Reed Sustained by the Supreme Bench.**

WASHINGTON, November 25.—McCulloch has ordered the sale of twenty-five thousand dollars in gold per week, in St. Louis, to relieve importers; also, issued an order directing the deposit of internal revenue taxes with the United States Assistant Treasury or designated depositories in cities where they exist after December 1st.

But four Revenue Supervisors remain to be appointed.

H. C. Piles succeeds Creeny as chief of appointment bureau.

Grant visits Boston this week, and returning spends Monday and Tuesday in New York.

Public offices closed to-day at noon to remain closed until Friday.

Creery leaves for Louisiana Friday.

Farragut had a prolonged interview with the President and Seward.

Col. Powell, of Tennessee, has been appointed Consul to Port Stanley, Faulkner Islands.

The State Department is officially advised that Washington is fixed by Johnson and Stanley as the place for the meeting of the Alabama claims commissioners. The details are not fully settled.

Notwithstanding contrary reports, it is known our Government is satisfied with the progress of negotiations, and has no reason to doubt this arrangements for the settlement of these claims will be satisfactory to both nations.

Grant will visit Gen. Burnside at Providence during his Northern trip.

Continued discharges of females from the Treasury Department occasions great distress, and there are some apprehensions of suffering during the winter.

Unofficial letters from naval officers contradict stories which have been circulated charging Lopez with various crimes against humanity—particularly with the assassination of certain foreign Consuls.

JACKSON, Miss., Nov. 25.—The Republican State Convention met here to-day. G. L. Morphis was elected permanent President. A committee was appointed to prepare an address for the Convention to Congress. A resolution was adopted requesting Congress to secure the right of suffrage to every loyal citizen of every State in the Union not disfranchised for crime.

MONTGOMERY, November 25.—The Legislature is discussing a bill to stay the collection of debts. Two Judges have already decided the stay law now in force unconstitutional. A bill fixing the time of election for members of the 41st Congress is also under consideration. Some favor the election in February, others not until next September. The bill for the suppression of alleged Ku Klux disorders is made the special order for Saturday. Both Houses adjourned over until Friday, to observe to-morrow as thanksgiving day.

The United States Court was to convene here last Monday. Judge Busteed has not yet arrived from New York. A large number of lawyers and other persons interested in the Court, from different parts of the State, have been here since Monday awaiting his arrival and the opening of the Court. It is now thought that he will not hold this term of the Court, as the charges against him will likely require his presence at Washington during the session of Congress.

NEW ORLEANS, 25.—All horses named for the State Post Stake for Saturday have broken down. Pat Malley broke down yesterday. Sundown will probably be substituted to represent Missouri, Fanny Cheatham to represent Alabama. Substitute for Woodford's for Louisiana not yet named.

NEW YORK, 25.—Spoken November 15th, latitude 33, longitude 78, bark Ransdell, from Charleston for England, had lost deck load of naval stores in a gale on the 13th.

GALVESTON, Nov. 25.—The brig Ballot-Box from New York for Galveston, with an assorted cargo, went ashore at Bird Island off Bolivar Point during the heavy gale yesterday afternoon; she is a total wreck—no lives were lost.

A lady on board the steamer Sarah from Mobile for New Orleans, was robbed of nine thousand dollars last night. No clue to the perpetrators.

Notice is given of closing the Government offices to morrow.

RICHMOND, Nov. 25.—Chief Justice Chase, in his orders to-day dispensing with the test oath for grand jurors, explained that it was the additional oath prescribed by Congress, which is to be taken unless the court in its discretion directs otherwise. He adds: Scruples at taking it, expressed by some of the grand jurors known to be among those best qualified for the responsible duties of their position, have induced us to inquire whether the public interest now demand that the taking of it be required, and were satisfied that while the matters affirmed in it are proper cause of challenge in particular causes, the ends of justice will be hindered and defeated rather than promoted and secured by directing it to be administered unless some special occasion shall demand it, and no such occasion now exists, and inasmuch as the required number of grand jurors have not yet been sworn, we will order that those who have been sworn be discharged, and the Marshal will summon another grand jury in the usual manner. In his charge to the grand jury he spoke as follows of revenue frauds:

"We admonish you, gentlemen, to exercise your utmost vigilance on the subject of frauds on the revenue as an evil which the land cries out upon; and frauds upon the revenue are frauds upon the whole body of tax payers; and no one who eats, drinks, wears, or is sheltered under any roof however humble, now escapes taxation. Whatever the dishonest avoid paying their worthier fellow-citizens must make up; investigate thoroughly therefore, and spare nobody, least of all those in highest and most responsible positions. Those who are worthy will welcome inquiry, which must turn to their praise. The sum of two millions and a half dollars tax was paid on tobacco manufactured and shipped from Richmond for nine months, ending 1st instant."

TALLAHASSEE, Nov. 25.—In the Supreme this morning Lt. Gov. Gleason was [illegible] Court ther time, until 4 P. M., to the [illegible] granted further should not be issued [illegible] cause why writ the Court adjourned [illegible] diately. After which of respect to Ge[illegible] 10 o'clock to-morrow out the membe[illegible] Waddy Thompson, and to allow funera[illegible] of the Bench and Bar to attend his [illegible] Advisory opinions were delivered this morning on questions submitted by Gov. Reed some days since. The opinions are unanimous, lengthy and well fortified by precedence and authorities, and sustains Gov. Reed's position; decide that there was no Legislature assembled under Gov. Reed's proclamation for a special session, and if there had been a legal assembly, that the form of impeachment was irregular and not in accordance with law, and that the mere passage of resolutions of impeachment does not impeach. A colored Senator who was present states that when articles of impeachment were presented to the Senate, so-called, not a quorum of the members in attendance on the session were in the Senate Chamber. Little doubt exists but a writ quo warranto will be issued, but nisi will begin to-morrow and may continue several days.

RICHMOND, November 25.—A telegram to the Whig from Lynchburg, announces the arrival to-day of a large party of Maryland and Pennsylvania land buyers. They leave to-morrow, and go as far South as Atlanta.

LONDON, Nov. 25.—The Times says the Liberal majority in the new House will be 117. Gladstone's defeat in southwest Lancashire, is attributed to local dislike to the Irish people.

PESTH, Nov. 25.—Deputies members have been seated in the Hungarian Diet.

"BOB, where is the State of Matrimony?" "It is one of the United States. It is bounded by haggling and kissing on one side, and cradles and babies on the other. Its chief products are population, broomsticks, and staying out o'nights. It was discovered by Adam and Eve, while trying to find a northwest passage out of Paradise. The climate is rather sultry, till you pass the tropics of housekeeping, when squally weather commonly sets in with sufficient power to keep all hands as cool as cucumbers. For the principal roads leading to this interesting State, consult the first pair of blueeyes you run against."

Bob knows nothing about it. We have been all through that State. Its *confines* are boundless.

THE LAST SPASM.—The opposition to the Democratic nominees for Mayor and Aldermen dies hard. That it is aware of its dissolution needs no further proof than the action of the Committee, to be found in another column. Colonel Glenn, and the other Democrats sought to be inveigled by the hybrid, having declined the use of their names in the disreputable plot, some members of the Committee it seems, met yesterday and agreed to present a sort of "af-and-af" ticket.

The acceptance of Colonel Hulsey, and the ostracism of the gentlemen of the First, Third, Fourth, and Fifth Wards is an act of self stultification that we were not prepared for. A few days ago Hulsey was too young, and lacked experience, while McCamy and Carr, of the Fifth Ward, were held up as patterns for Aldermen, while the whole ticket was condemned because all were not such as they. The imbecile furor exhausts itself in a convulsive reversal of tactics. Hulsey suddenly becomes a "marvelous proper man" for the Mayoralty, and McCamy and Carr are condemned unfit for the responsible duties of Aldermen.

The ticket indicates the "line of fight," and we see nothing to complain against but a Quixotic myth. Mays and Brotherton of the 1st Ward, Sisson and Anderson of the 3d, Howell of the 4th, and McCamy and Carr of the 5th, are the obnoxious men on the Democratic ticket. The Democrat who, under the circumstances, strikes their names should forever be ashamed in the presence of Democracy. The dying ass may be excused for a spasmodic harmless kick. Our friends will make the application at the ballot box.

THE CONCORDIAS.—Though the evening was exceedingly inclement, the Amateurs played to an intelligent and appreciative audience. We enjoyed the representation of the "Broken Vows." It is a beautiful domestic drama in two acts, and the Concordia troup presented it in a chaste and interesting style. Jasper did his role remarkably well, and Cornelia discovered dramatic talent of a very high order. Meg and Mrs. Netwell performed their parts well.

The evening's entertainment was quiet, orderly and dignified—pleasant and satisfactory to all present.

We were pleased to learn that the two pieces, "Broken Vows" and "Gertrude," will be repeated next week, so that the ladies may have an opportunity of witnessing the performance.

### The Municipal Election.

ATLANTA, Ga., Nov. 25, 1868.

The Committee appointed at the Citizens' Meeting, on the 18th inst., to fill vacancies, respectfully present the following ticket for Mayor and Council, at the approaching election, and commend the same to the confidence of the voters of Atlanta:

FOR MAYOR,
W. H. HULSEY.
FOR COUNCILMEN,
First Ward—Richard Peters, C. P. Cassin.
Second Ward—Dr. D. C. O'Keefe, Dr. E. J. Roach.
Third Ward—L. P. Grant, Joseph Bradfield.
Fourth Ward—M. Mahoney, J. R. Wallace.
Fifth Ward—E. W. Holland, J. A. Hayden.

WM. RUSHTON, Chairman.

QUERY.—We want to know whether Messrs. Roach and O'Keefe, of the Second Ward, and Mahoney, of the Fourth, sympathize with the disorganizing movement over the signature of Wm. Rushton, Chairman? And we want to know, further, whether Messrs. Grant, Bradfield and Wallace consent to be made the instruments of discord and dissension in the ranks of the Democracy?

RESOURCES OF SOUTH CAROLINA.—We have been presented with a beautiful specimen of porcelain clay, from Bath Mills, near Aiken, which would not fail to excite the admiration of all beholders. It is exceedingly compact, and of a beautiful milky whiteness. There is no reason to doubt but that porcelain manufactured from this would be equal to any in the world if skillfully worked.

A learned doctor, referring to tight lacing, avers that it is a public benefit, inasmuch as it kills all the foolish girls, and leaves the wise ones to grow up to be women.

## Autumnal.

From the Atlantic Monthly for December.]

Can this be sadness? this forbode decay!
Are these the vestments of funereal woe?
Sure hues that pale like these the dawning's glow
The rather deck some Dryad's festal day!
Hail, radiant hour! thrice welcome, gladsome ray,
That kindling through these bows, with golden flow,
Streams joy and summer to the shades below!
And thou, brown-dappled oak and maple gay,
In rippling waves of many-tinted flame,
Lithe birch, gold-hued, thin ash, whose dyes might shame
The trodden vintage reeking on the lees,
And ivied beech, with sangnine cinctures fair—
As in the long days past, fraternal trees—
With you, whate'er your gladness, let me share!

O'er banks of mossy mould how lightly strown
All the wan summer lies! The needless tread
Awakes no sound; and had not pale leaves fled,
As soft it came, the low wind were not known.
How strange the sharp and long-drawn shadows thrown
From lank and shrivelled branches overhead,
While from their withered glories, spoiler-shed,
The earthly autumn-scents are faintly blown!
Ah! rest and ravaged bowers, the garish day
Flaunts through the hiding of your dewy glooms!
And thou, in leafy twilights wont to be,
Shy maid, sweet-thoughted sadness, come away,
And here, beneath this hemlock's drooping plumes,
With pensive retrospection, muse with me.

Why holds o'er all my heart this dreamy hour
A sway that spring or summer never knew?
Why seems this ragged sentian, wanly blue,
Of all the circling year the fairest flower?
Whence has each wandering leaf this mystic power,
That all my secret being trembles through—
Or sounds the blackbird's note more human true
Than oft the songs of June from greenwood bower?
Deep meanings haunt the grove and sunny glades,
Strange clearness broo'ds along the hazy slopes,
A vague, but tender awe my breast pervades,
That hints of shadowy doubt, yet is not fear;
While musing quiet stirs with drowsy hopes,
And Nature's loving heart seems doubly near.

THE CROP OF LOUISIANA SUGAR.—We are indebted to a friend who has an experience of many years in the cultivation of sugar in this State, for the following interesting intelligence:

We have heretofore referred to the sugar crop of this year, and, from the information we have received from time to time from the various cane-growing parishes, we have made estimates of the "probable" yield, and now confirm what we have already stated—that the crop will exceed one hundred thousand, and may reach one hundred and thirty thousand hogsheads.

A trip along the coast will give any party interested in the sugar culture an idea of the yield per arpent of plant cane.

In the parish of St. John the Baptist a number of planters commenced yesterday, and those who have been grinding for some time are perfectly satisfied with the yield; and, as the weather is all that could be desired—dry and cold, there having already been a heavy frost—the belief among those who have a knowledge of the number of arpents to the ground, with the yield already ascertained, is that the crop of that parish will exceed six thousand hogsheads, or three times the crop of last year. The canes on Watson's Hope plantation are excellent; so are they on nearly all places. It is to be regretted that the machinery on the Angelina plantation got disarranged, as the crop is a large one; but it is hoped the coupling to the mill will be readjusted in a day or two, when the work of taking off the crop will commence.

We did not see that the ice of last week interfered with the appearance of the cane. It is true it is not of the deep green color of two months ago, but the color it now has, we should judge, is owing to its growing ripeness.—*New Orleans Crescent, 19th.*

The above table, claimed by the *Era* (Bullock's organ,) to be official, gives Seymour a majority of 44,606 over Grant in Georgia. This table embraces all the counties in the State.

| DAILY, PER ANNUM | $10 00 |
| " SIX MONTHS | 5 00 |
| " ONE MONTH | 1 00 |
| WEEKLY, PER ANNUM | $3 00 |
| " SIX MONTHS | 1 50 |
| " THREE MONTHS | 1 00 |

THE CONSTITUTION is intensely DEMOCRATIC, and neither pains, enterprise, nor money will be spared, in the efforts of the Proprietors, to make it a leading organ, and one of the first papers in the South.

THE CONSTITUTION has scarcely laid aside its baptismal robes, and yet its circulation is equal to, if not greater, than any political paper in Georgia. This unparalleled success is mainly attributable to the industry and enterprise which have characterized its management.

As its name imports, it is battling for the Constitution and the liberties of the people; and the patronage it has received, assures the Proprietors that their labors are appreciated, and their policy endorsed.

As an advertising medium, THE CONSTITUTION is, perhaps, superior to any paper published in the State, its circulation being confined to no particular locality, but extending from one end of the State to the other, and from the Savannah to the Chattahoochee.

The Proprietors intend no relaxation of their energy, but will add new features of interest and more vigorous enterprise as patronage increases; and they hope in future, as in the past, to merit the good will and plaudits of their numerous readers.

The excellent remedies of O. S. Prophitt, M. D., need no recommendation. Their well known power in removing the diseases peculiar to our Southern Climate, having already established for them an enviable reputation in Georgia and the adjoining States. As the majority of persons living in the South are pre-disposed to disease of the Liver, it is granted by all intelligent physicians that most of the pains and aches of our people are due to organic or functional derangement of that important organ. Prophitt's Anti-Bilious Pills and Liver Medicine strike directly at the root of the evil. They cure the Liver which, in nine cases out of ten, is at the bottom of the Coughs, Dyspepsia, Colic, Sick Headache, Rheumatism, Constipation, Menstrual Obstructions, etc., so common among our people, Earache Toothache, Acute Rheumatism, Neuralgia, and bodily pains of every kind flee before PROPHITT'S PAIN KILL IT like chaff before the wind.
